Terms and Conditions of Sale

Terms: Net due 30 days from date of invoice to established credit line customers, with a 1.8% service charge per month on all past due accounts. When a balance goes beyond 30 days from date of invoice, additional credit extension will cease until other arrangements have been made with us and all purchases will be on a COD basis until overdue balance is paid in full. Cash or check on pick-up for all clients with no established credit line
We accept VISA and MASTERCARD.

Credit: We welcome requests for credit. Credit application forms are available from our office upon request. Please allow 2-3 weeks for credit review.

Sales Tax: The State of Minnesota requires that sales tax be paid on all purchases of products purchased in Minnesota unless the buyer provides a complete, valid tax exemption certificate at the time of sale. A tax ID number alone is not sufficient.

Fax 952-469-1844
E-Mail: cni@frontier.com

PRICES: All prices in this catalog are F.O.B Lakeville, MN and are subject to change without notice. Our prices do not include boxing and baling. There is no charge for loading. Our prices are based on current conditions and you will find them to be very competitive. Prices are subject to change without notice.

Shipping: Cross Nurseries ships mainly by Motor Freight, UPS or similar freight haulers. When ordering give the instructions on when and where, if no instructions are given we will use our best judgment, assuming no responsibility. All shipments travel at the buyers risk and expense. Customer is responsible for supplying labor and equipment for unloading. Call for quotes on shipping or delivery pricing.

Claims: Claims for any cause must be made in writing within 5 days of receipt of nursery stock or claim will not be considered.

Warranty: We cannot assume responsibility for the transplanting of plant materials. Weather conditions, methods of handling and care govern the results. Materials are sold with the understanding,, that if they arrive in good condition and are accepted, our responsibility ceases.

We are continually getting new item in our wholesale yard, so feel free to call for availability of material not listed in our catalog.

Office Hours: Monday thru Friday 7:30 – 4:30
Saturday 7:30 – Noon
Closed Sundays and Holidays

Loading Hours: Monday thru Friday 7:30 – 3:30
Saturday 7:30 – 11:30
Closed Sundays and Holidays

Trucks must allow enough time to be loaded by closing time

Volume Discount: Our volume discount is based on the total purchases of nursery stock, at current catalog prices, from July 1st to June 30th. The amount used to determine your volume discount does not include sales tax or freight. We will issue a 'Credit Memo' in July after your account has been paid in full. This 'Credit Memo' is good only on purchases of the following year and is not cash redeemable.

Sufficient time must be allowed to finish loading by the posted closing times on page 1 in this catalog. When picking up your order, bring a tarpaulin or suitable covering to protect your nursery stock.

The weights listed above are a close approximation.

PROPER CARE OF NURSERY STOCK

We suggest a few brief, important, steps to consider when handling your nursery stock.

Do not allow roots to dry out at any time when you are handling your plant material.

Keep out of the sun, wind and freezing temperatures.

If possible, store bare root material in a refrigerated storage area or store plants in a cool, humid room.

Plants may be heeled in sand, sawdust or wood chips for a longer period of time.

If material has been frozen in transit, thaw out material very slowly. It should not be handled until thawed.

SWEATING BARE ROOT PLANTS

To provide a warm, humid environment for bud break, lay down the plants to be sweated, in the shade. Cover with a wet packing material, such as a rug, make sure the plants are kept moist. Ideal temperatures should range between 45 and 70 degrees. When the buds begin to swell, the plants are ready to pot or line out. If after a week the buds have not begun to swell, do not become alarmed. In some instances, bud break can take several weeks.

Cross Nurseries recommends forcing the following plants.

Amelanchier	Redbud
River Birch	Weeping Willow
Tamarix	Mulberry
Hawthorn	Roses
Pagoda Dogwood	Oak
Hackberry	Potentilla
Barberry	Variiegated Dogwood
Ironwood	Spreading Cotoneaster

Other varieties may require sweating, depending on the location. Includes Ash, Linden, Locust.

SHIP BARE ROOT PLANTS IN A BOX

We ship many orders of Bare Root Shrubs all over the United States. We ship with FED-EX, SPEEDY, AND UPS. This can be done quite inexpensively and delivered right to your door. BARE ROOT plants are available in Spring and late fall only. CALL AND ASK.

These plants are boxed and shipped and they are delivered to your door within one to two days. The plants are fresh and delivered in excellent condition, and this method is less expensive than having them delivered or picking them up via your own truck.

A large red grape with a high sugar content, good for table use or jellies. (Zone 3-4)

Bare Root

#1 5.95

GRAPE Valiant - Vitis x Valiant

A blue grape, very hardy and matures early. Great for jellies wine or juice. From South Dakota State. (Zone 3)

Bare Root

#1 6.25

HORSERADISH

Horseradish are dig roots in fall, grate and mixed with vinegar. Store in Jars, or freezer bags, keeps refrigerated for months..

Bare Root

#1 2.65

PEACH

BAILEY HARDY – Prunus

Fruit is good size, great for eating. Sweet. Good for sauces and baking. Self- fruitful. Needs no pollinator. Ripens in mid August. (Zone 5-8)

Bare Root

Std 11/16" CVI 19.00

RELIANCE – Prunus

The hardiest yellow fleshed freestone peach available. Medium sized yellow fleshed peach. Good for fresh market in cold regions. Ripens in mid-August. (Zone 5-8)

Bare Root

Std 11/16" CVI 19.00

PEARS

LUSCIOUS – Pyrus

Juicy, sweet, medium to small bright yellow fruit. Glossy green foliage and red fall color. Can not be used as a pollinator. Ripens in September. (Zone 4-8)

Bare Root

S-333 11/16" CVI 18.00

PARKER – Pyrus

A U of M introduction . Large yellow bronze fruit. Tender and juicy. Upright and vigorous grower. 'Parker ' is good pollinator. Ripens in August. (Zone 4-8)

Bare Root

S-333 11/16" CVI 18.00

SUMMERCRISP – Pyrus

A U of M introduction. The fruit should be harvested in mid-August when crisp and green with a red blush. Ripens in August. (Zone 4-8)

Bare Root

S-333 11/16" CVI 18.00

PLUM

ALDERMAN – Prunus

Burgundy-red fruit. Excellent for eating and making preserves. Bears fruit in the second season after planting. Ripens in late August. (Zone4-8)

Bare Root

Std 11/16" CVI 18.00

MOUNT ROYAL – Prunus

A blue fruit that can be eaten off the tree or is good for making jams and preserves. Tender and juicy. Ripens in late August. (Zone 4-8)

Bare Root

Std 11/16" CVI 18.00

PIPESTONE – Prunus

A red plum with a golden blush. Sweet, juicy yellow flesh with good quality. Good for jam, jellies or eating. Ripens in late August. (Zone 3-8)

Bare Root

Std 11/16" CVI 18.00

CROSS NURSERIES, INC.

SUPERIOR – Prunus

Large fruit with dark red skin. Flesh is yellow, sweet and juicy. Good for jams, jellies or eating. Heavy bearer. Ripens in late August. (Zone 4-8)

Bare Root

Std 11/16" CVI 18.00

TOKA – Prunus

One of the best pollinators. A medium-sized, richly flavored variety with a beautiful apricot color. Ripens in August. (Zone 3-8)

Bare Root

Std 11/16" CVI 18.00

RASPBERRY

RASPBERRY Boyne – Rubus

A June bearing fruit, good flavor, productive, good for freezing, desserts, canning. (Zone 3)

Bare Root

#1 1yr 2.75

RASPBERRY BRISTOL BLACK – Rubus

Fruit is black and large. Excellent quality, good flavor and ripens in mid season. Good for canning and freezing. (Zone 4-8)

Bare Root

#1 1yr 4.25

RASPBERRY CAROLINE – Rubus

Very flavorful and productive. Fruits earlier than Heritage. Top quality. (Zone 4-7)

Bare Root

#1 1yr 2.90

RASPBERRY HERITAGE – Rubus

An everbearing fruit with good flavor and quality. Bears twice a summer, June and September. (Zone 3)

Bare Root

#1 1yr 2.75

RASPBERRY KILLARNY – Rubus

Summer bearing. Attractive red fruit. Sturdy growth habit. Very winter hardy. (Zone 3-7)

Bare Root

#1 1yr 2.75

RASPBERRY LATHAM – Rubus

Introduced by the U of M in 1920. Red ripening over a long period. Very good fruit. Freeze, jams or jellies. (Zone 4-7)

Bare Root

#1 1yr 2.75

RASPBERRIES grow in a wide range of soil types, but the ideal environment is well-drained subsoil, full sunlight and good air circulation.

RHUBARB

RHUBARB Canada Red – Rheum

The sweetest of the red rhubarbs, great for sauces, jellies or pies. (Zone 2)

Bare Root

#1 2yr 4.10

STRAWBERRY

STRAWBERRY ALL STAR – Fragaria

Excellent flavor, June-bearing. These are great for eating, canning and freezing. (Zone 3-5)

Bare Root

#1 1yr .45

STRAWBERRY FORT LARAMIE – Fragaria

The berries are large and sweet with good flavor and texture. Ever-bearing. Produces a spring crop and continuing to bear through to late fall. (Zone 3-5)

Bare Root

#1 1yr .45

STRAWBERRY HONEOYE – Fragaria

The red fruit has good flavor and texture. These are great for eating, canning and freezing. hardy. June-bearing. (Zone 3-5)

Bare Root

#1 1yr .45

STRAWBERRY SPARKLE – Fragaria

Crimson red fruit, excellent flavor. Good disease resistance. Good for fresh eating, canning and freezing. (Zone 3-5)

Bare Root

#1 1yr. .45

STRAWBERRY

Grow strawberries in moist, well drained soil with good fertility. Plant several varieties to extend the season and curb the spread of disease. Apply a winter mulch of clean, weed-free straw to protect the crowns and flower buds.

BLUEBERRY

Blueberries require an acidic, well drained soil. All soils can be amended to make them suitable. Plant more than one variety for good pollination results for better yields and berry size.

APPLE

Apple trees require two apples to enhance pollination. Plant two different varieties no further than 500 feet apart from each other.

GRAPES, the University of Minnesota is recognized as one of the top wine grape and table grape research programs in the country. U of M introductions Bluebell Grape.

Edelweiss Grape, Swensons Red Grape. Frontenac, Grape, LaCrescent. Grape, the Frontenac Gris Grape, Marquette. Grape. All good for fresh eating, juice or Wine making.

APRICOTS, are fine ornamental trees with an early spring bloom. A need for two varieties for cross pollination. The U of M 'Sungold' and 'Moongold' cultivars make a good planting combination. The fruit is good for fresh eating, preserves and in sauces.

MOUNTBATTEN Juniperus chinensis ‘Mountbatten’

Bright green foliage, short and wide growing, color is outstanding. Hardy.

Container	Field Potted	B&B	
	3-3 ½"	4'	59.00
		5'	79.00

PRAIRIE PINNICLE Juniperus scopulorum ‘Prairie Pinnacle’

A selection from the prairies of North Dakota. A short growing narrow upright with a blue foliage. Hardy. H. 8-12' W. 2-3' (Zone 3)

Cont	Field Potted	B&B	
	3-3 ½'	4'	59.00
		5'	79.00
		6'	99.00

RED CEDAR Juniperus virginiana

These are the native Red Cedars. Root pruned and sheared. Beautiful specimens H. 12-15' (Zone 2-3)

Container	Field Potted	B&B	
	30-36"	4'	59.00
	3-3 ½'	5'	79.00

STAR POWER – Juniperus x ‘J. N. Select Blue’

Bluish-green star like foliage. Fast growing and durable.

Full sun with well drained soil. Introduce by Johnson’s Nursery, Inc. H. 15-18' W. 6-7' (Zone 3)

Container	Field Potted	B&B	
	3-3½'	4'	59.00
		5'	79.00
		6'	99.00

SUTHERLAND – Juniperus scopulorum ‘Sutherland’

A slower, shorter growing upright with a nice green color. A soft foliage and it doesn’t require much trimming. H. 8/12' W. 4/5' (Zone 3)

Container	Field Potted	B&B	
	30-36"	4'	59.00
	3-3 ½'	5'	79.00
		6'	99.00

TAYLOR Juniperus virginiana ‘Taylor’

A narrow colum

nar selection of the Red Cedar. Hardy, a nice specimen. H. 15-18' W. 3' (Zone 3)

Container	Field Potted	B&B	
	3-3 ½'	4'	59.00
		5'	79.00
		6'	99.00

WELCHI Juniperus scopulorum ‘Welch’

Bright blue foliage on conical growing upright, keeps its blue color. Hardy. H. 15/18" W. 4' (Zone 3)

Container	Field Potted	B&B	
	3-3 ½'	4'	59.00
		5'	79.00
		6'	99.00

WICHITA BLUE Juniperus Scopuloram ‘Wichita Blue’

Broad pyramidal, light blue foliage. H. 8-10' W. 4-5' (Zone 3)

Container	Field Potted	B&B	
	3-3 ½'	4'	59.00
		5'	79.00
		6'	99.00

CROSS NURSERIES, INC.

PINE - PINUS

AUSTRIAN - Pinus 'Nigra'

Dark green foliage, heavy long needles with good fragrance. Tolerates adverse conditions. H. 50-60' W. 30-40' (Zone 3)

Container	Field Potted	B&B
	3' 49.00	4' 69.00
		5' 79.00
		6' 99.00

BLUE SHAG – Pinus strobes 'Blue Shag'

A compact, rounded conifer with blue-green needles. Very soft texture.

H. 4-6' W. 6-8' (Zone 3-8)

Container	Field Potted	B&B
#5	59.00	

MUGHO DWARF - Pinus Mugo Pumila

Dark green, slow grower. Grows in a mound form.

H. 3-5' W. 3-5' (Zone 3)

Container	Field Potted	B&B
#3	23.00	
#5	26.00	
#7	39.00	

PONDEROSA – Pinus ponderosa

Long green needles, this large tree gets a narrows crown as it matures. Prefers moist soil, and salt tolerant.

H. 60-80' W. 25-30' (Zone 3)

Container	Field Potted	B&B
		5' 79.00
		6' 99.00
		7' 109.00

SCOTCH – Pinus sylvestris

Blue-green short needles. As tree matures it becomes open and umbrella-shaped. Does well in all soils. H. 4' W. 30' (Zone 2)

Container	Field Potted	B&B
		4' 69.00
		5' 79.00
		6' 99.00

WHITE – Pinus strobus

Fast growing, soft needles. Native evergreen, long green foliage

Needs moist, well drained soil. Intolerant of salts and air.

H. 60' W. 30-40' (Zone 2)

Yellow daisy-like flowers, brown centers. Height 24" – Spread
24"

#1 Cont 5.95

SALVIA – Sage**Blue Hill**

Deep blue spikes, early to mid summer, till frost. H. 15" W. 18"

#1 Cont 5.95

Marcus

Dwarf Variety, spreading habit. Deep blue flowers. H. 12"

#1 Cont 5.95

May Night

Indigo blue flowers, mid June. Height 12" – Spread 16"

#1 Cont 5.95

Sunny Border Blue

Purplish-blue flowers on gorgeous green foliage. Blooms long
lasting. Height 20"

#1 Cont 5.95

SEDUM – Stonecrop**Autumn Joy**

Grows in poor soil or rich soil, tolerates dry conditions.

Height 18" – Spread 18"

#1 Cont 5.95

Bailey's Gold

Yellow-orange star shaped flowers. Height 3'

#1 Cont 5.95

Dragon's Blood

Reddish-purple foliage, low growing, red flowers. Height 6"

#1 Cont 5.95

SEDUM - STONECROP**Kamtschaticum**

Low growing showy ground cover. Tolerates poor soil and dry
conditions, Golden. Height 6"

#1 Cont 5.95

Kamtschaticum Variegatum

Yellow-orange flowers on a neat growing ground cover,
tolerates poor soils, dry.

#1 Cont 5.95

Matrona

Dark foliage, red flowers. Height 18" – Spread 18"

#1 Cont 5.95

CROSS NURSERIES, INC.

Purple Emperor

Purple foliage, pink flowers. Height 16" – Spread 18"

#1 Cont 5.95

SEMPERVIRENS – HEN AND CHICKS

Little star like heads sprouting along side the larger star like heads. Tolerates poor soils and conditions. H. 8"

#1 Cont 5.95

ORNAMENTAL GRASSES

ANDROPOGON gerardi 'BIG BLUE STEM'

Clumps of blue-green turning red in fall. Purple flower spikes. Height 3'

#1 Cont 5.95

#2 Cont 7.95

CALAMAGROTIS 'AVALANCHE' acutiflora

Variegated, white center with green margins, silvery-tan plumes, starting mid summer. Height 4'

#1 Cont 5.95

#2 Cont 7.95

CALAMAGROSTIS 'KARL FOERSTER' – Feather Reed

Erect habit, showy feather plumes in late spring.

Height 4' – Spread 2'

#1 Cont 5.95

#2 Cont 7.95

#5 Cont 16.95

CAREX muskingumenses – 'PALM SEDGE'

Prefers shade, but will tolerate sun, brownish-yellow blooms.

Height 3'

#1 Cont 5.95

DESCHAMPSIA caespitosa – 'TUFTED HAIR'

Summer blooms, delicate inflorescence. Height 2'

#1 Cont 5.95

FESTUCA 'ELIJAH BLUE'

Elijah Blue

A small clump of blue foliage. A rock garden grass.

#1 Cont 5.95

#2 Cont 7.95

HELICTOTRICHON – 'BLUE OAT'

Sapphire Blue Oat

Clump forming, blue foliage. Flowers in May. Sun.

Height 2' – Spread 2'

#1 Cont 5.95

MISCANTHUS – 'CHINESE SILVER'

showy flower heads from August into winter, best flower.

Height 5' – Spread 4'

#1 Cont 5.95

#2 Cont 7.95

MISCANTHUS – 'RED FLAME'

Upright habit, green foliage, turns red in late summer.

Height 3' – Spread 3'

#1 Cont 5.95

#2 Cont 7.95

MISCANTHUS – 'SILVER FEATHER'

Large plant with silver-pink flowers in August.

Height 6' – Spread 4'

#1 Cont 5.95

PANICUM – 'SHENANDOAH'

Foliage that changes to burgundy in September. Height 4'

#1 Cont 5.95

PHALARIS – 'RIBBON'

Feesey's Form

Green and white striped, pink blush, showy into winter.

Height 3' – Spread 2'

#1 Cont 5.95

#2 Cont 7.95

SCHIZACHYRIUM - 'LITTLE BLUE STEM'

Good blue foliage, good fall color, drought tolerant.

Height 3' – Spread 15"

#1 Cont 5.95

#2 Cont 7.95

SORGHASTUM – 'INDIAN'

Clump forming, attractive steel blue foliage. Height 4'

#1 Cont 5.95

SPOROBOLUS - 'PRAIRIE DROPSEED'

Prairie Dropseed

Airy cloud-like flowers, reddish fall color. Height 2' – Spread 2'

#1 Cont 5.95

GRASSES

Grows best in moist, well drained soils. Some types are more drought or moisture tolerant. Some varieties are clump forming, others spread by rhizomes or stolons. Cut back in early spring, before new growth emerge.

EVERGREEN TRANSPLANTS

Two and Three year "Field Grown" evergreens.

Bare Root Transplants: Spring only.

Transplants will be dug upon pick up date.

"

**ARBORVITAE – Dark Green, Hetz Midget, Holmstrup,
Little Elfie Globe, Brandon Pyramidal, Woodward,
Technito.**

3 yr. 6/9"	2.35
3 yr. 9-12"	2.65
3 yr. 12-15"	3.25

**JUNIPER SPREADER – Andorra Compact, Blue Chip, Blue
Rug, Broadmoor, Calgary Carpet, Daubs Frosted, Scandia,
Sea Green.**

3 yr. 6-9"	2.35
3 yr. 9-12"	2.65
3 yr. 12-15"	3.25

JUNIPER UPRIGHT - GRAFTS

All grafted Junipers are made in January, February and will be deliverable by mid-May-June 1st.

Each Grafts comes in a 3" pot and each is staked and tied.

**Blue Arrow, Medora, Mountbatten, Prairie Pinnacle, Star
Power, Sutherland, Taylor, Welch, Wichita Blue.**
3.75

PERENNIAL – BARE ROOT DIVISIONS

Hemerocallis (Daylily)

Two Three year old "Field Grown" clumps April-August.

Each clump can be divided into 10-20 #1 divisions.

Gentle Shepherd, Lehman's Red, Little Grapette, Little Wine
Cup, Ruby Stella, Ruffled Apricot, Stella D' Oro and more.
3 year Clump (Bare Root) Clump 12.95

Hosta – Plantain Lily

3 year field grown Hosta. Each clump can be divided into
8-12 #1 Divisions. April, May, August and September.

Albo Marginata, August Moon, Blue Angel, Blue Cadet,
Francee, Francis Williams, Gold Standard, Krossa Regel,
Minuteman, Twilight, Wide Brim.
3 year Clump (Bare Root) Clump 15.95

PICTURE LABELS

A colored photo of each plant, with a description and
good planting instructions and an ultimate size.

MINIMUM ORDER OF 5 PER VARIETY

\$.25 - \$.40 Cents each

THERMAL SLIP ON TAGS

This label has a variety name, a brief description and a size.
No color photo. Hangs on a branch. Two lines of print only
per label.

.10 Cents Each

ORDER & SHIPPING INFORMATION

FED EX AND SPEEDY SHIPMENTS

All plant material shipped Fed Ex or Speedy requires special
packing. These charges will be added to your invoice at cost
and are not subject to any discounts.

DELIVERY CHARGES

All prices are FOB Lakeville, MN. Deliveries are by hired
freight haulers. Local deliveries are made by our trucks.
Rates quoted upon request. Minimum freight charge is \$100.
All orders travel at risk and expense of the customer.
Cross Nurseries has to hire a truck haulers (semi) to make
your deliveries. The customer must pay freight costs within 10
days from delivery. Cross Nurseries will invoice the customer
as soon as the delivery has been made. If not paid after 30
days, we will add a fee of 5% per month if non-payment of
freight bill. (We cannot be your bank).

PICK UP ORDERS

Please allow one week's notice to facilitate scheduling of your
order. Bare Root plants baled or boxed will have a packaging
fee added. When picking up your order, please bring a tarp for
covering your plants.

SUBSTITUTIONS

Often times your order is booked early and is before our plants
have been graded or tagged. If the size you have ordered and
is not available, we will offer a substitute, the same variety and
we may offer a size, either up or down at the same price
unless otherwise advised. Please inform us when ordering
that substitutions are acceptable. If any major change, we will
call you.

PERMITS

Any changes incurred in obtaining permits necessary to
facilitate the shipping of plant materials, is the responsibility of
the customer and will be added to your invoice at cost.

CANCELATIONS

We can understand that at times it is necessary to cancel an
order. We would suggest that you give us as much notice as
possible, either in writing or by telephone.

CLAIMS- WARRANTIES

**All orders are accepted subject to crop conditions, and we
Reserve the right to cancel any portion of any plant order,
should injury befall the plants from hail, wind, frost and
any other condition. We are careful to keep our varieties
true to name and will replace, at our option, any portion of
the stock that may prove otherwise, or refund the price
paid. WE WILL NOT BE RESPONSIBLE for any other
expenses, losses or any inconvenience which the
purchaser may sustain as a result thereof.**

RE-STOCKING FEE

A restocking fee of 10% will be charged for returns and for
cancellations made within 7 days of scheduled delivery.

WHERE OUR MINNESOTA APPLES CAME FROM

This article was taken from a book, written by an old nurseryman friend, Irv Hanson. The book titled, "Just Add Water".

Irv Hanson was an old friend Nurseryman from Willmar, Minnesota. Irv was a School Teacher, semi-pro Baseball player, a good landscape designer, a good writer and a good friend.

Propagating apple trees is done by budding, or root grafting. Only in this way will the progeny be exactly like the parent. Rarely a "Sport" will appear. Our Connell Red apple is an all red "Sport" that appeared among its less colorful relatives, in a "Fireside", orchard in Wisconsin. The Connells regard it as a most welcome visitor. also, Louis Lutz at LaCrescent found a tree in his Haralson orchard that insisted on coming with solid dark red apples instead of the so-so color normally found in Haralson. The newcomer was named Haralred, it is now being distributed and promises to be a real winner. In post Civil War days, nursery peddlers from the south roamed the countryside selling southern stock. They grew fine till fall, but failed to awaken the following spring. Some folks classed these southern peddlers with lightning rod salesmen, backroom faro dealers and pickpockets.

The early settlers craved fruit, however, and knew better than to stick to a mistake, so they planted their own seeds and the survivors have been the basic stock for our present day apples. It's been a slow, laborious process that's still going on. The University of Minnesota had two plantsman hunting better fruits on the northern steppes of Russia all this past summer. Today, we have about a dozen sorts being planted in Minnesota.

Hundreds of other kinds once grown in the state are no more. A partial list from the Minnesota State Fair exhibit of 1912 follows: Hubbarstan, Non Such, Ben Davis, Lyman prolific, Martha Florence, Virginia, Tonka, Talman Sweet, Plum Cider, Scott's Winter, Winter Banana, Twenty Ounce Pippin, Pine Stump, Seek No Further, Kansas Keeper and

Sweet Russet. The real impetus to apple growing in Minnesota came from the Minnesota Horticulture Society, founded by about 100 oldsters from around the state. These chaps were all in the November-December of their days. There were no go-getters or after dinner speakers among them; without exception they had worked with their hands – mostly retired farmers, some were still active and had other fish to fry, but they loved their work and always looked forward to the mysteries and surprises of yet another spring among their trees. This total dedication had something to do with the legislature's establishing a fruit breeding farm at Excelsior. Seedlings were grown there and doled out to members who ran trial stations. The seedlings were numbered, their good and bad habits carefully checked, and the best ones finally named.

These elderly whales of the tree art, held annual meetings in St. Paul that lasted a week. Ideas and experience of the past year were were aired in open meetings and they were not always in agreement. Certain members could be counted on to hooch up their faculties, the better to espouse their cause, and arguments did simmer and boil up. By time to disband, all was sweetness and light, all made short speeches giving thanks, and all vowed to carry on the crusade another year.

Minnesota as an apple state will never be a Washington or even a Michigan, but, considering our climatic extremes, the home orchardists lot is improving and the end is not yet in sight ! I think of Aunt Emma in apple season. She came up with all sorts of delectable apple concoctions, all pure ambrosia, all fit for the gods and all tossed together without benefit of recipes. All cooked on a rattley, old iron stove that burned wood anWe downed it all nonchalantly, no words of praise forthcoming, as we talked of pigs, cattle and crops. Then we reached for our caps and went back to work. Spoiled ? You bet ! In the early 1900's, the University of Minnesota plant breeders collected wild trees as well as cultivars from New England and other Midwest breeders. Thousands of seedlings were grown form those parent trees, and the record-breaking cold winter of 1917-1918 helped sort out the winners. Some progeny of 'Malinda' – a New England apple – survived and led to the successful apples of the 1920s, including 'Haralson' and 'Beacon'. And some of the 'Malinda' genes live on in varieties released decades later: 'Honeygold' and even 'Honeycrisp'.
